Masterclass voor lichaamsgerichte (psycho)therapeuten

Adding the spiritual dimension to therapy

The spiritual dimension of the work lives in our body-mind. Do we embody spirit for ourselves and thereby invite our people to reveal their own connection to Source, the Mystery? Allowing ourselves to be guided into this unknown territory which the client seeks help to find is one of the most important tasks of our work. We will explore ways to activate this Source for ourselves and others in our work with individuals and the collective.

Kathleen Goldberg is a Core Energetics Therapist trained by John Pierrakos in the West Coast USA program directed by Siegmar and Cornelia Gerken. Discovering the Pathwork in 1978 led her to Core Energetics. She became a Pathwork helper in 1984. For 40 years she has studied and taught the Pathwork and has been committed to integrating the spiritual and psychological in embodied ways, while having fun and laughter in the mix.

For 30 years Kathleen has collaborated with her husband Ken Goldberg, integrating Core Energetics and the Pathwork with clinical understanding in somatic psychotherapy by facilitating process groups, workshops and professional trainings.
